CLOUD SOLUTIONS FOR WORKFORCE MANAGEMENT & SECURITY INDUSTRIES

A great vision
a decisive journey

THE GROUP

TimeTec is an extended brainchild of the Group's CEO who combined the incoming trends of cloud technology with FingerTec brand's vast experience and expertise in the workforce and security industry.

The initiative backed by a group of dedicated, energetic and CMMi certified R&D team, is venturing on a great journey to launch its first state-of-the-art TimeTec TA, a cloud based workforce attendance management system, followed by Epicamera cloud surveillance that has successfully gathered great reviews from our worldwide customers.

The triumph of this initiation has enticed more cloud application developments. Designed in tandem with its collaborative apps on iOS and Android, this effort is forming an integrated cloud solution that is aimed to surpass market expectations in both the workforce and security industries.

A man in a dark suit and blue tie is holding a white smartphone in his right hand. A glowing green aura surrounds the phone, and various business-related icons are floating around it. The icons include a clock, a smartphone, a dollar sign, a shield, a speech bubble, a person silhouette, a laptop, a bar chart, a cloud with a heart, a house, a shopping cart, a mobile phone, an envelope, a globe, and a cloud with a dollar sign. In the background, there is a faint sketch of a city skyline with several skyscrapers.
