TimeTec Smart Command Center (TimeTec SCC) is a cloud-based central management platform that enables parking operators to monitor, manage and support multiple parking sites from a single location. By centralising routine monitoring and remote support, TimeTec SCC allows one operator to oversee multiple sites efficiently—reducing manpower requirements, accelerating incident response and improving the overall parking experience.

TIMETEC SCC ADVANTAGES

Centralised Monitoring & Control

- Monitor and manage a single site or multiple parking sites from one command center.
- View real-time operational data through a simple, interactive dashboard.
- Track parking occupancy across all connected sites in real time.
- Access integrated CCTV feeds for centralised security monitoring.
- Open entry and exit barriers remotely when assistance is required.

Faster Remote Assistance

- Communicate directly with motorists through the integrated intercom system.
- Correct incorrectly captured vehicle plate numbers remotely to facilitate payment and exit.
- Respond promptly to operational issues without waiting for on-site personnel.
- Improve traffic flow by resolving entry, payment and exit issues quickly.

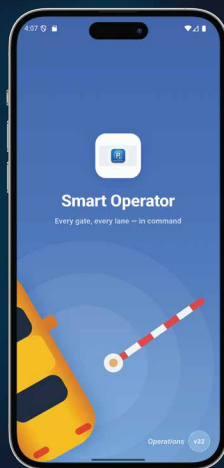

Proactive System Monitoring

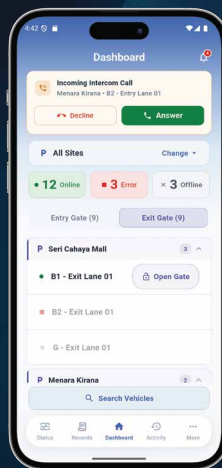

- Receive instant alerts when on-site devices malfunction.
- Conduct remote system health checks across connected parking sites.
- Identify offline readers and other disconnected devices through a centralised listing.
- Access continuously updated operational information for faster troubleshooting and decision-making.

SMART OPERATOR APP

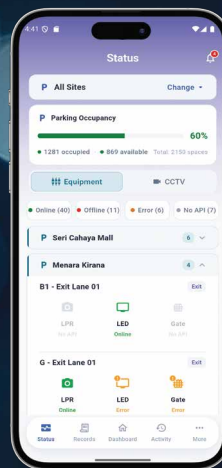

TimeTec SCC comes with the Smart Operator App, giving authorised personnel the mobility to monitor operations, receive alerts and provide remote support from virtually anywhere.

AI OPERATOR COMING SOON

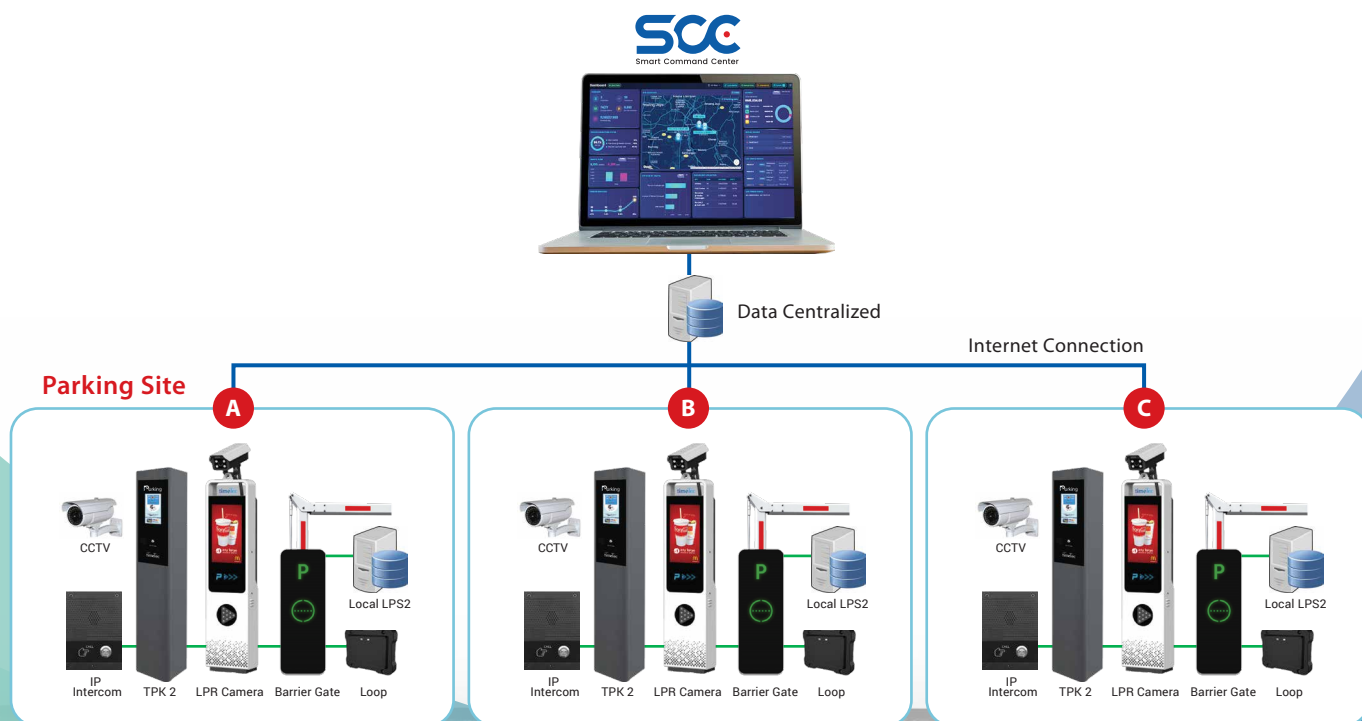

The upcoming AI Operator will further automate routine monitoring and operational tasks. By detecting issues, prioritising alerts and assisting with incident response, it will help parking operators reduce their reliance on manpower while delivering faster and more consistent support.

MANAGE MORE SITES WITH FEWER RESOURCES

With TimeTec SCC, parking operators can centralise control, improve operational visibility and deliver responsive assistance across multiple sites—without deploying a full operational team at every location.

TimeTec SCC – Centralised Control for Smarter Parking Operations.
