

We do better **RECRUITMENT**

TimeTec Hire is a cloud-based recruitment system designed to find the perfect match between what's required by companies and what's available in the job market. It has been carefully crafted to assist companies from the pre-hiring process, to the job postings, to the sharing of the vacancy, to the flow of the hiring process up to the onboarding process of new recruits into the company with ease. TimeTec Hire solution is embedded with an Applicant Tracking System to enable companies to collect and sort piles of resumes to find the ones that match the requirements of the vacancies automatically and in the shortest amount of time.

What's more, TimeTec Hire helps companies build a better collaborative recruiting team that can collectively decide on the qualifications and requirements for a vacancy and determine the questionnaires as well as interview score cards' criteria to avoid biases and unfair advantage throughout the process. By having an automated and regulated recruitment system like TimeTec Hire, companies are taking better charge of their own recruitments to shape the future they want.

Improve Hiring Process

Get the hiring process, qualifications, requirements and team right to obtain the best talents out there, and customize every detail to your company's preference.

Drop Resume

Candidates can use the Drop Resume feature for future vacancies' consideration if the current openings do not match their qualifications.

Create Better Team with Multiple Roles

Assign multiple administrators such as Hiring Managers, Recruiters and Coordinators to be involved in the hiring process for better results.

Landing Page

Embed TimeTec Hire on your website easily, and leverage your brand to attract and recruit quality talents.

E-Application Form

Create your own electronic application form containing general and specific information that is important to your business.

Auto Reminder Mailers

Keep applicants and recruiting team informed and reminded about the scheduled interviews and questionnaire status automatically.

Schedule to Auto-Publish

Set your job posts right and schedule them to be published automatically on your preferred dates and times.

Audit Log

Record all audit logs of editing activities from Application Form, Qualification & Requirement, Questionnaire, Scorecard, Hiring Workflow and etc.

Sharing of Vacancy Links

Publicize the vacancies via the automatically generated link sharing for better exposure and high engagement.

Onboarding Process

TimeTec Hire is integrated with TimeTec Profile for a hassle-free onboarding process with complete and accurate information obtained from the earlier recruiting processes.

Get Reports of Your Recruitments

Evaluate and streamline your recruitment process for better efficiency!

HIRED REPORT SUMMARY

This report summarizes the number of hired applicants for selected job title within the selected time range. It also provides the average time taken to fulfil the job vacancy.

SOURCE REPORT SUMMARY

The report provides information of the source where applicants received news about the jobs. This allows the HR and person in charge to identify the most suitable channel for future job advertisement.

JOB SUMMARY

Summarises the number of applicants applied for the job post, the hiring stages with the applicant count for each stage, number of hired applicants and the average time taken for the company to hire applicants.

BENEFITS

- Fast and easy system deployment • Minimize burden on HR, IT and support staff • Low upfront capital investment for an effective system
- Predictable monthly payments for effective financial planning • Multi-branch management made easy • Accessible via Internet anytime, anywhere
- Free & regular software updates • Optimal uptime and system reliability • Unlimited worldwide support from our global partner network
- Reduce IT maintenance and upgrade costs • High reliability with over 15 years experience in time and attendance system development and industry
- Secure, redundant and environmentally conscious data center

Post Vacancies

Customize application forms, set minimum qualifications and requirements to aim for the most suitable candidates.

Automated Screening Process

Applicants qualifications and credentials will be screened and matched against the requirements to shortlist the most viable candidates

Customize Questionnaires

Different position requires different knowledge and expertise. Hence, craft your questionnaires to test the candidate's understanding of the job first hand.

Scorecards

Weight applicant's interview points on each recruitment stage and shortlist using comprehensive scorecards method.

Check Status

Applicants can log in anytime to check on their recruitment status and update their profile, including a contact number. Managers can monitor the hiring process and make necessary adjustments on the hiring status to get the best person for the job.

Remuneration Package

Offer remuneration packages easily. Applicants can accept, decline or negotiate a remuneration package; ensuring a win-win situation for both parties.

Data Integration

All data from newly recruited employees are easily integrated with TimeTec Profile and other TimeTec solutions.
