

# timeTec

## TimeTec Cloud City Smart City Ecosystem

The essence of a Smart City is defined not only by how advanced its ICT infrastructure is, but, more importantly, by the hundreds of thousands of connected digital buildings and the billions of interconnected activities that take place daily through the interactions of millions of people who live, work, and breathe in the city, embracing the digital lifestyle.

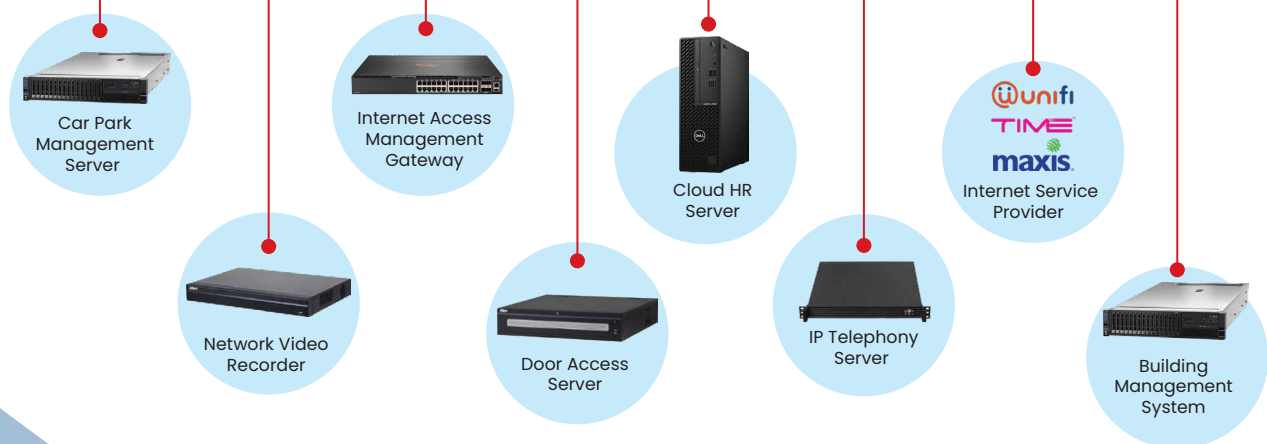

## Pre-Smart Township Construction

### Front End/ User Equipment

### IP BASED NETWORK INFRASTRUCTURE | Communication Medium

### Back End/ Management Equipment

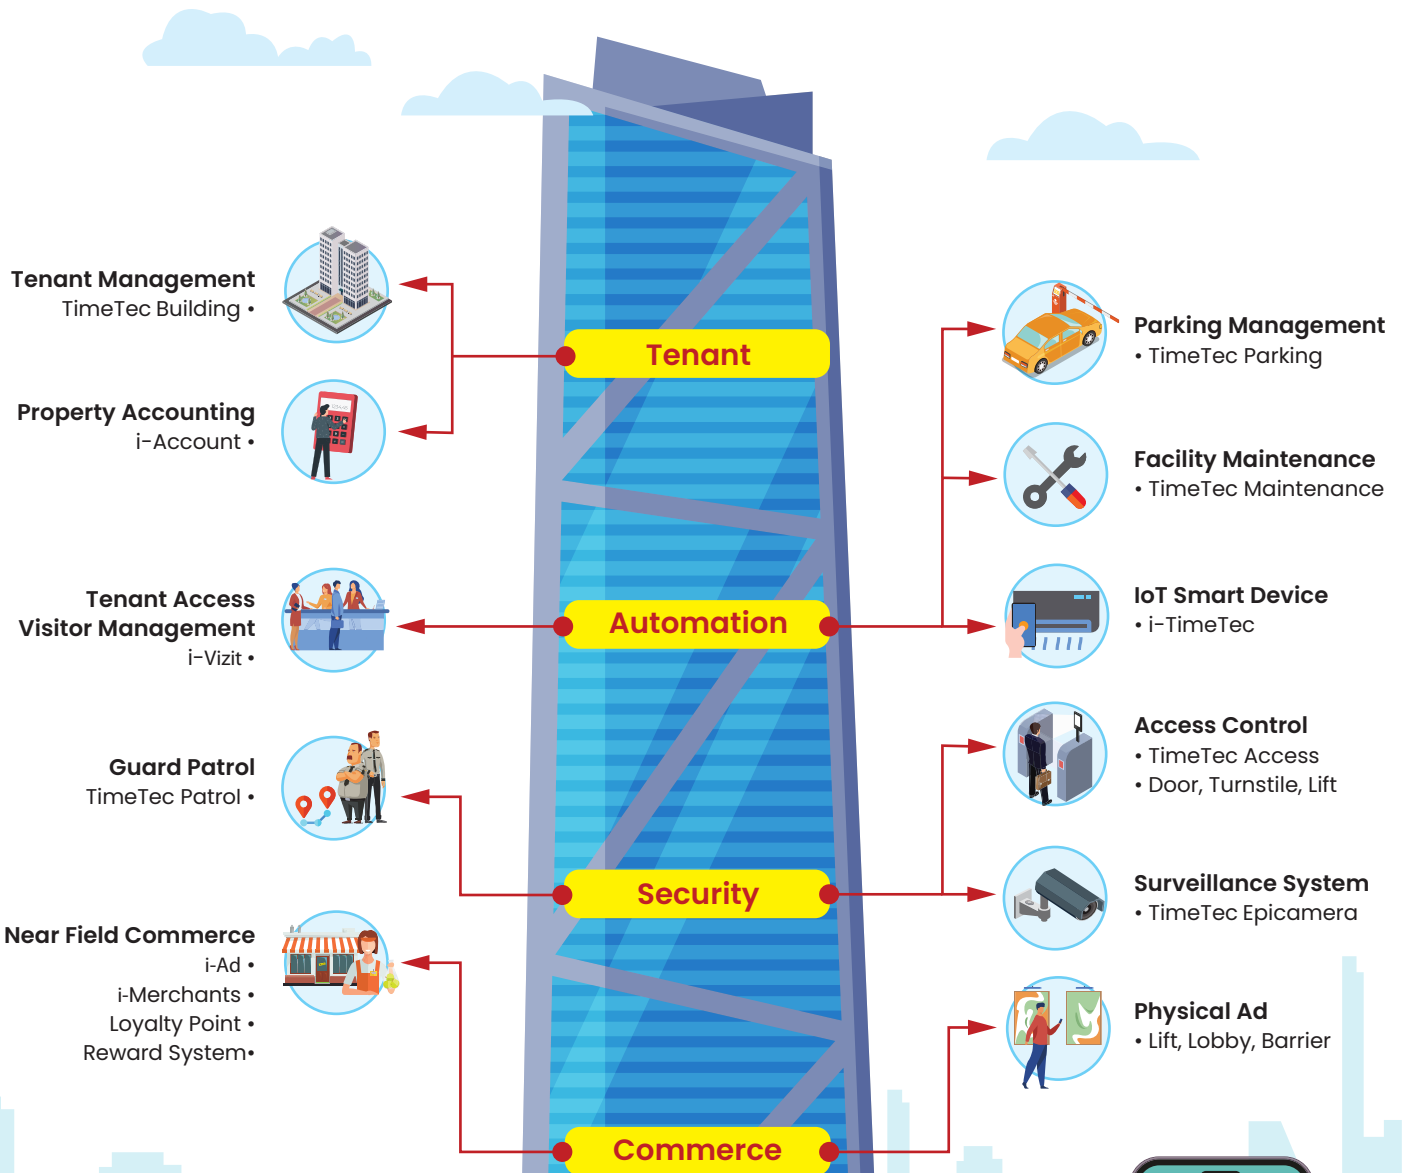

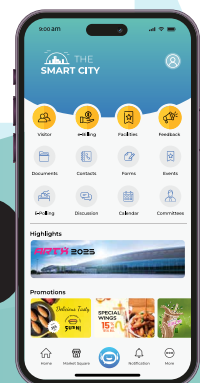

## Smart Township Operation

### SMART BUILDING MANAGEMENT

### WORKFORCE MANAGEMENT Time Attendance, Leave, Claim, Payroll

**DIGITAL LIFESTYLE** Driven by Data  
Data Analytics, Agentic AI (*Business Transformation*)

3rd Level
